This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. SCIENCE PRIMERS FOR ELEMENTARY SCHOOLS.

MESSRS. MACMILLAN AND CO. are preparing, under the joint Editorship of

PROFESSOR HUXLEY, PROFESSOR ROSCOE, and PROFESSOR BALFOUR STEWART,

A Series of **SCIENCE PRIMERS** for facilitating the introduction of Science Teaching into Elementary Schools. These Primers will be written in such a manner as to make the information conveyed in them not only intelligible but also interesting to Pupils in most elementary classes. They will be clearly printed on good paper, and with illustrations wherever they are necessary to the proper understanding of the text. The following will be published shortly, and others will follow :—

INTRODUCTORY. By Professor Huxley. 18mo., 1s.

CHEMISTRY. By Professor Roscoe. 18mo., 1s.

PHYSICS. By Professor Balfour Stewart. 18mo., 1s.

ELEMENTARY CLASS BOOKS OF SCIENCE.

MESSRS. MACMILLAN AND CO. wish to call attention to their Series of **SCIENTIFIC CLASS BOOKS,** which are specially adapted to the requirements of beginners, whether for private study or for school instruction. The Authors are well known as among the foremost men of their several departments, and the works afford full and accurate elementary information conveyed in clear and lucid English. The following have already appeared :—

ASTRONOMY: POPULAR ASTRONOMY. With Illustrations. By G. B. AIRY, Astronomer Royal. Sixth Edition. 18mo., 4s. 6d.

ELEMENTARY LESSONS IN ASTRONOMY. With Illustrations. By J. NORMAN LOCKYER, F.R.S. With Coloured Diagram of the Spectra of the Sun, Stars, and Nebulæ. 18mo., 5s. 6d. Eighth Thousand. QUESTIONS ON THE SAME, 1s. 6d.

"The book is full, clear, and sound, and worthy of attention, not only as a popular exposition, but as a scientific index."—*Athenæum.*

BOTANY: LESSONS IN ELEMENTARY BOTANY. With Illustrations. By Professor OLIVER, F.R.S., F.L.S. Twelfth Thousand. 18mo., 4s. 6d.

"We know of no work so well suited to direct the botanical pupil's efforts as that of Professor Oliver's, who with views so practical, and with great knowledge too, can write so accurately and clearly."—*Natural History Review.*

CHEMISTRY: LESSONS IN ELEMENTARY CHEMISTRY. By Professor ROSCOE. With numerous Illustrations and Chromo-lithograph of the Solar Spectra. Thirty-first Thousand. 18mo., 4s. 6d.

"It has no rival in its field, and can scarcely fail to take its place as a text-book at all schools where chemistry is now studied."—*Chemical News.*

LOGIC: ELEMENTARY LESSONS IN LOGIC, DEDUCTIVE AND INDUCTIVE. By Professor JEVONS. With copious Questions and Examples, and a Vocabulary of Logical Terms. Second Edition. 18mo., 3s. 6d.

"Nothing can be better for a school book. It is a clear, distinct outline of logic in its old familiar, technical form, with the necessary explanations put as briefly and sensibly as possible."—*Guardian.*

PHYSICS: LESSONS IN ELEMENTARY PHYSICS. By Professor BALFOUR STEWART. With numerous Illustrations, and Chromo-lithograph of the Spectra of the Sun, Stars, and Nebulæ. Second Edition. 18mo., 4s. 6d.

"The beau-ideal of a scientific text-book, clear, accurate, and thorough, and withal written in a style so simple and interesting as to impart a real charm to the study."—*Educational Times.*

PHYSIOLOGY: LESSONS IN ELEMENTARY PHYSIOLOGY. With numerous Illustrations. By Professor HUXLEY. Twentieth Thousand. 18mo., 4s. 6d. QUESTIONS ON THE SAME, 1s. 6d.

"It is a very small book, but pure gold throughout. There is not a waste sentence, or a superfluous word, and yet it is all clear as daylight."—*Guardian.*

POLITICAL ECONOMY: POLITICAL ECONOMY for BEGINNERS. By MILLICENT GARRETT FAWCETT. With Questions. 18mo., 2s. 6d.

"Perfectly suited to its purpose; it is clear, concise, and lively, putting the subject in a way as much for boys as could be."—*Spectator.*

PREFACE.

THE objects of this work are twofold: first, to provide all those who have the care of the education of youth with the salient points of interest connected with all Colleges and Schools of a public character; secondly, to afford to all who are engaged in the profession of teaching an opportunity of registering their titles to this position. Within the last few years education has grown into a most important science, and the increased attention that is bestowed upon it by all classes of society, proves the necessity that a teacher should be able to show his credentials, and that the days of irresponsible masters and mistresses are fast being numbered.

The Editor begs to offer his sincere thanks to all those who have so kindly assisted him during the progress of the work by prompt and courteous returns of information, and particularly to the authorities and officers of the Education Department.

He trusts that the Edition of next year will contain more precise information from the heads of those few public schools, who have hitherto withheld it, and begs that all errors and omissions may be kindly made known to him, care of Mr. Stanford, 6, Charing Cross.

March, 1872.

Students will be examined in such places as the Syndicate appointed by the University may determine; and the next examination will be on December 19, 1872.

After the examination the names of the students who pass with credit will be placed alphabetically in three honour classes. The names of those who pass to the satisfaction of the examiners, yet not so as to deserve honours, will be placed alphabetically in a separate class. Separate lists will also be given of those students who may specially distinguish themselves in particular parts of the examination, and in these lists the students will be arranged in order of merit. After the name of every student will be added his place of residence, the school (if any) from which he comes to attend the examination, and the name of his schoolmaster.

In determining the classes, account will be taken of every part of the examination; but no marks will be given in any paper, unless the student shows enough knowledge to satisfy the examiners in that paper. Regard will be paid to the handwriting and spelling throughout the examinations.

The students who pass with credit or satisfy the examiners will receive certificates to that effect. A student who barely satisfies the examiners in the minimum number of subjects may be rejected on the ground of general weakness. Every certificate will specify the subjects in which the student has passed with credit or satisfied the examiners, and the class in which his name is placed.

Every one admitted to examination will be required to pay a fee of twenty shillings.

Applications for an Examination will be considered from any place where a Local Committee is formed which will guarantee the payment of twenty-five fees at the least.

Local Committees, wishing to have examinations held in their several districts, may obtain all necessary information from the Secretary to the Syndicate, the Rev. G. F. BROWNE, St. Catherine's College, Cambridge.

* For Secretaries of Women's Examinations, see page 155.

Digitized by Google

In making application the name and address of the Local Secretary and a list of the Local Committee must be forwarded. It is desirable that the Local Secretary should not be a schoolmaster having pupils for examination.

REGULATIONS *of the Syndicate appointed by the University of Cambridge to provide for the Examination of Schools.*

Application for the examination of a school under the regulations of the University must be made to the Syndicate through the Secretary, the Rev. G. F. BROWNE, St. Catherine's College, Cambridge. Applications will be considered in the week following the 1st March, the 1st May, and the 1st November in each year, and must be sent for this purpose on or before these days respectively.

The subjects of examination of each class will be those taught them in the school; and may extend to the following: Divinity, English, Latin, Greek, French, and Mathematics.

The Report of the examiner or examiners will specify the state of proficiency of each several class, and the general state of the whole school; and will name, if required, the boy in each class who acquits himself the best. This Report will be made to the Syndicate, and will be communicated by them to the head master or governors of the school.

The Syndicate will in each case decide the number of days required to conduct the examination, according to the number of boys and the extent of the subjects.

The fee charged on each examination will be 10*l.*, and the examiner will be required to be present two full days at least. But if the Syndicate decide that the number of boys and extent of the subjects require a longer time or more examiners, then for each additional day and for each examiner fees to the amount of 3*l.* per diem will be charged.

The expenses of the examiners, as well as of printing examination papers, if any, must be entirely defrayed by the school.

When two or more schools in the same neighbourhood are examined in immediate succession, the expenses will be apportioned between them; and the minimum fee may be derived from more than one school in the same neighbourhood.

The day on which the examination of each school will commence will be fixed by the Syndicate, but the arrangement of days will be made so as to suit as nearly as possible the convenience of the several schools which are to be examined at about the same time.

The Examination Papers, the Class Lists, and Reports of the Syndicate, may be had at Messrs. Rivington's, Cambridge Warehouse, 12, Stationers' Hall Court, and 3, Waterloo Place, London, or through any bookseller.

Two examinations of Teachers are held annually, *viz.* in the Midsummer and Christmas vacations; the former between the 18th June and the 12th July, the latter between the 18th December and the 12th January.

Fees.—1st examination, 1 guinea. For each subsequent examination, ½ guinea. Associate's diploma, 5 guineas. Licentiate's diploma, 5 guineas, but only 2 in the case of candidates who are associates. Fellowship diploma, 5 guineas. Prizes for various subjects are offered at the examination for diplomas.

Examination of Schools.—The First-Class Certificates of the College are recognized by Her Majesty's Judges and by the General Medical Council as guarantees of good general education, and consequently the holders of them who may be intended for the legal and medical professions are exempted from the necessity of submitting to the preliminary literary examinations held by the Incorporated Law Society, and by the various medical corporations of the United Kingdom. The Pharmaceutical Society also recognizes, in a similar way, all the College Certificates, the holders of which have passed an examination in Latin; and all the College Certificates are recognized by the Royal Veterinary College.

Examination for Women.—There will be an examination, open to women who have completed the age of 18 years before January 1, 1872. Candidates will be examined in such places as the Syndics appointed by the University may determine. The Syndicate will entertain applications from places where 25 fees at the least are guaranteed. Before any application for an examination can be approved, the Syndicate must be satisfied as to the following points:—That there is a committee of ladies who will efficiently superintend the examination, one of whom will undertake to act as Local Secretary; that this committee will see that suitable accommodation can be obtained by candidates who are strangers to the place; that a responsible person will be at hand to receive the examination papers from the conducting examiner and collect the answers. Committees wishing to have examinations held in their several districts may obtain all necessary information from the Rev. G. F. Browne, St. Catherine's College, Cambridge.

1. Every one admitted to examination will be required to pay a fee of forty shillings. After a certificate has been obtained, the fee in any subsequent year will be twenty shillings.

CLASSIFIED CATALOGUE of School, College, Classical, Technical, and General Educational Works in Use in Great Britain.

This Catalogue, published in August, 1871, having been out of print for some months, and being much enquired for by the Trade and Schoolmen (the demand having much exceeded the expectations of the Publishers), it has been determined by the Compiler to prepare immediately an entirely New Work, embodying the latest Publications and various other new features.

The New Work will be even more generally used as a book of reference at the South Kensington Museum than the first one.

*** Advertisements will be inserted on the same plan as before, reference being made in the text to the page of the Appendix in which advertising lists may be consulted. Advertisements should be supplied, or engaged immediately.

GROOMBRIDGE'S SCIENCE MANUALS,

Designed for the use of Schools, Colleges, and Candidates for University and other Examinations.

CHEMISTRY.

By F. S. BARFF, M.A. Illustrated with numerous Wood Engravings. Fcap. 8vo., cloth, 4*s*. An Introduction to Scientific Chemistry, designed for the use of Schools and Candidates for University Matriculation Examination.

"This is the first volume of an educational series of elementary treatises about to be issued for students. The student who knows Mr. Barff's book in the way it is intended to be known, will have a solid ground-work of chemical knowledge on which he may safely rear the more speculative branches of the science. For the purposes of clear instruction, for preparing for the earlier examinations, and last, though not least, for cheapness and excellence, we heartily recommend Mr. Barff's work to the notice of students."—*Lancet.*

HEAT.

By TEMPLE AUGUSTUS ORME. Illustrated with numerous Wood Engravings. Fcap. 8vo., cloth, 3*s*. 6*d*. An Introduction to the science of Heat, designed for the use of Schools, and Candidates for University Matriculation Examinations.

"This book is full of excellent examples of the various laws of heat, and the student who has worked through these questions cannot fail to have acquired a good practical knowledge of the subject."—*Nature.*

MECHANICS.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcap. 8vo., cloth, 4*s*. An elementary course of Theoretical and Applied Mechanics, designed for the use of Schools, Colleges, and Candidates for University and other Examinations.

"Mr. Wormell states in clear and concise language the principles of elementary statics and dynamics. We have no doubt that this excellent little work will be a great success."—*Nature.*

"Mr. Wormell's book cannot be too warmly praised as an introduction to the study of theoretical and applied mechanics."—*Chemist and Druggist.*

HYDROSTATICS AND SOUND.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcap. 8vo., cloth, 3*s*. An elementary course of Hydrostatics and Sound, designed for the use of Schools, Colleges, and Candidates for University and other Examinations.

"Forming one of the admirable series of 'Groombridge's Science Manuals,' 'Hydrostatics and Sound' is in every respect worthy of the position assigned to it. The various principles enunciated are illustrated most clearly by experiments, which being fully and carefully described in a popular style, may readily be performed by the uninitiated."—*City Press.*

"The whole subject is dealt with in a very simple and intelligible way, which will doubtless recommend it to students."—*Educational Times.*

NATURAL PHILOSOPHY.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcap. 8vo., cloth, 4*s*. A course of Natural Philosophy, containing the Elements of Mechanics, Hydrostatics, and Optics, for Schools, Colleges, and Candidates for Matriculation.

"A truly practical book, the chief advantage in its use being the means that are adopted for simplifying instruction. Mr. Wormell excels in clearness of explanation, and we should place this treatise in the hands of any intelligent boy, with the firm conviction that he would derive a basis from it, upon which the soundest information and most practical application can be obtained."—*Bell's Weekly Messenger.*

MURRAY'S STUDENT'S MANUALS.

A Series of Historical Class-Books for advanced Scholars.

"This series of 'STUDENT'S MANUALS,' edited for the most part by Dr. WM. SMITH, and published by Mr. MURRAY, possess several distinctive features which render them singularly valuable as educational works. While there is an utter absence of flippancy in them, there is thought in every page, which cannot fail to excite thought in those who study them, and we are glad of an opportunity of directing the attention of such teachers as are not familiar with them *to these admirable school-books.*"—*The Museum.*

JOHN HEYWOOD'S MANCHESTER READERS. A new series of books of rudimentary instruction for elementary schools of all grades and classes, specially prepared to suit the requirements of the New Code, affording the most efficient instruction in *Reading*, *Writing*, and *Arithmetic*, for the various Standards of examination.

The Reading and Spelling Lessons will be found of inestimable value, being based upon a perfect system of gradation, and differing in style from any others published. Writing Lessons are introduced in the Primer and the First Book; those in the former being expressly designed for practice on the slate, the letters in the copies being white on black ground. The Lessons in Arithmetic will be found adapted to the different Standards; and an entirely novel feature is the introduction of a series of Drawing Copies for slate practice, instead of the inferior wood-cuts which are generally found in reading books.

"THE SCHOOLMASTER" is in the highest sense a Professional Organ, in which the interests of Teachers are advocated, and their opinions freely expressed. It gives early and accurate intelligence of Educational proceedings, and is a medium of rapid communication between all interested or engaged in National Education. It contains Leading and Contributed Articles by the most eminent practical and theoretical Educationists; the list of Contributors already comprising the names of some of the best known Educational Writers. The very complete staff of Agents and Correspondents already appointed throughout the country, in the Colonies, and on the Continent, enables "THE SCHOOLMASTER" to furnish special information as to the progress of Education at "Home and Abroad."

The price of the Paper, and the character of its contents, has already secured for "THE SCHOOLMASTER" an extensive circulation among School Managers, Teachers, Members of School Boards, and others. As a *Weekly Newspaper* it has its special place among scholastic periodicals, and while it in no way interferes with existing papers, it secures to School Managers seeking Teachers, and to Teachers seeking Schools, extraordinary advantages.

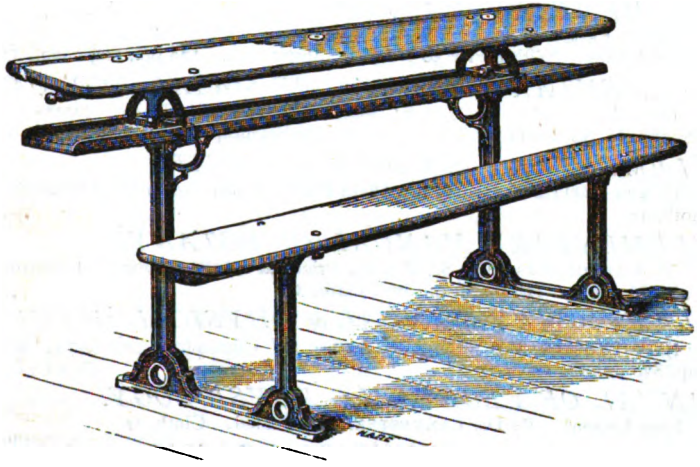
PRIZE MEDAL, "NORWICH, 1871."

We have great pleasure in calling the attention of gentlemen interested in School Fittings to the improvements we have recently introduced.

THE

EASTERN COUNTIES SCHOOL DESK.



1st. As shown in the woodcut it is a strong Desk, of the exact dimensions recommended by the Committee of Council on Education.

2nd. These Desks may be instantaneously transformed into comfortable backed seats, facing either way, without the trouble of turning them round.

3rd. They form flat tables two feet wide, with seats on each side, without obstruction to ingress or egress.

Without the slightest trouble or confusion, the children may have backed seats in their classes instead of desks (an advantage long desired by teachers), and a few minutes will suffice to prepare the room for Lectures, Divine Service, or Social Gatherings.

Unlike all other combination desks, there is no tendency in these to become rickety when in constant use.

A sample may be seen at the KENSINGTON MUSEUM, and we shall have pleasure in forwarding an Illustrated Prospectus, Post Free.

COLMAN & GLENDENNING,
NORWICH.

N.B.—No loose pins and chains, thumbscrews, or similar inconveniences; the fastening is entirely self-acting, and cannot be tampered with.

THE SCHOOL MANAGERS' SERIES

OF

READING BOOKS.

ADAPTED TO THE NEW CODE OF 1871.

EDITED BY REV. A. R. GRANT,

RECTOR OF HITCHAM, AND HON. CANON OF ELY, AND FORMERLY H.M.'S INSPECTOR OF SCHOOLS.

	s.	d.		s.	d.		s.	d.
FIRST STANDARD ...	0	3	THIRD STANDARD...	0	8	FIFTH STANDARD...	1	0
SECOND " ...	0	6	FOURTH " ...	0	10	SIXTH " ...	1	2

"Admirably adapted both in thought and language to children of various ages, simple without being at all silly, as is too often the case, instructive and yet anything but dull, and replete with sound moral and religious principles. . . . . The Fourth Standard contains an excellent introductory History of England, in which the leading incidents of each reign are briefly but effectively narrated."—*Athenæum, Sept. 16th*, 1871.

"The gradation is simple and natural, and the passage from common to uncommon forms of literary expression, and from ordinary to exceptional intellectual exercises, is very cleverly contrived, by an editor who has evidently thought long and earnestly on the conditions with which he has to deal."—*School Board Chronicle.*

"It is impossible to speak too highly of them. . . . We commend these books to the consideration of the National Society. Their *imprimatur* to a work so unique and almost perfect as that before us would be as creditable to the Committee as it would be an undoubted boon to school managers."—*John Bull, August 5th*, 1871.

"A skilful graduation of lessons as regards both the mechanical difficulty of reading and the nature of the subject matter, and a judicious choice of extracts, are the two cardinal virtues of a 'Reading Book,' and both of them we find here in perfection."—*Spectator.*

A Specimen Copy of either Standard post-free on receipt of two-thirds of selling price, or a Complete Set for 2s. 6d.

London: LOCKWOOD & CO., 7, Stationers' Hall Court, Ludgate Hill, E.C.

DARNELL'S COPY-BOOKS,

Now extensively used in National and other Schools in Great Britain and the Colonies.

ADVANTAGES OF THE SYSTEM.

It is the production of an experienced Schoolmaster.
The copies gradually advance from a simple stroke to a superior small-hand.
The assistance given in the primal lessons is reduced as the learner proceeds.
The great variety of the copies secure attention, and prevent the pupils copying their own writing as in books with single head-lines.
The system insures the progress of the learner, and greatly lightens the labours of the teacher.

Large Post	16	Numbers,	6d. each.
Oblong Foolscap	24	"	3d. "
Universal	16	"	2d. "

The "Universal" Series has been prepared to meet the increased demand caused by the extension of Education.

"For teaching writing, I would recommend the use of Darnell's Copy-Books. I HAVE NOTICED A MARKED IMPROVEMENT WHEREVER THEY HAVE BEEN USED."—*Report of Mr. Mayer, National Society's Organiser of Schools to the Worcester Diocesan Board of Education.*

DARNELL'S GRAMMAR MADE INTELLIGIBLE TO CHILDREN, price 1*s.* cloth.
DARNELL'S INTRODUCTION TO GRAMMAR, price 3*d.*
DARNELL'S ARITHMETIC MADE INTELLIGIBLE TO CHILDREN, 1*s.* 6*d.* cloth.
DARNELL'S SHORT AND CERTAIN ROAD TO READING, price 6*d.* cloth.

"Mr. Darnell has conferred a great benefit on the rising generation. He has composed a series of elementary treatises, in which the comprehension of the science or art taught is so much facilitated, that children of the dullest capacities are made capable of comprehending what is required of them, whilst teachers are relieved from the difficulties of imparting knowledge in the desultory and incomprehensible manner too often practised."—*The Times.*

LONDON: GRIFFITH & FARRAN, CORNER OF ST. PAUL'S CHURCHYARD.

Suitable for Private Schools, Families, and Government Schools.

GRANE'S EXAMINATION CARDS ... ... 1s.

36 sets, or 612 different questions, in four Packets. Series III., IV., V., VI.; two Sheets of Answers in each Packet. These Cards are all in words, and are suited to the four higher Standards in Government Elementary Schools, or to Pupils in Private Schools and Families.

"The questions are so varied in form and manner as to enable the scholar to withstand all the devices of the inspector. It will be very difficult for the scholars to work these cards correctly, but when they are once able to do it, there is no doubt that they are 'safe' for the Inspector's Examinations. We can guarantee that teachers purchasing these cards will not be disappointed."—*The National Schoolmaster.*

"The Examination Cards have less of novelty than the 'Metric System,' but they are well adapted to their purpose. The examples, which range from the Compound Rules to Interest and Fractions, are arranged in the way in which the Inspectors usually set Examinations, for which they will serve as a useful preparation."—*Educational Times.*

"The examples are all in words, and are of average difficulty. The cards will be much appreciated wherever used. They will be found to be of great service just before the Inspector's visit."—*Papers for the Schoolmaster.*

GRANE'S MANUSCRIPT ARITHMETIC, each part 3d.

Revised and Enlarged Edition; chiefly in words; consisting of four Books of Examples (numbering nearly 900), with Exercise Books ruled and spaced for working them. Should be ordered as follows: the Series correspond with the usual Standards.

EXAMPLES	III. *Third Edition.*	EXERCISE BOOKS	III., 1, 2.
,,	IV. *Third Edition.*	,, ,,	IV., 1, 2, 3.
,,	V. *Third Edition.*	,, ,,	V., 1, 2, 3.
,,	VI. *Second Edition.*	,, ,,	VI., 1, 2, 3, 4.

Including Proportion, Vulgar and Decimal Fractions, Interest, and the Metric Sums.

WORKED KEY TO THE ABOVE, cloth limp,

	s.	d.
Part I., for Series III. and IV.	1	4
Part II., ,, V. and VI.	1	8
Complete	2	6

The sums are worked in the most approved manner, and will be a useful guide to a young or inexperienced teacher.

*** *Apply to W. H. WALTER, 13, Lowesmoor, Worcester, for Specimen Packet, containing five Books and Cards, post free, for 1s. in Stamps; or one Book, with Sheets and Cards, 3d.*

45,000 copies having been sold, shows that these Books are valued by Teachers. The Author can confidently assure Managers that they will find it remunerative to provide the Examples as a class-book, selling the Exercise Books in the same way as copy-books to each child. The Grant is always larger where these books are used according to the author's plan, fully described in the Preface to the Examples.

"MANUSCRIPT ARITHMETIC.—This is a work that has grown out of a practical want. First, we have a series of books of examples, carefully classified, with some set out for working. All the examples are numbered. Corresponding with the books of examples we have sets of writing books, wherein is a place numbered and set apart for the neat work of every sum. This is not intended to supersede the ordinary slate work, but to supplement it, to promote habits of order and neatness in arithmetical work. The 'Manuscript Arithmetic' appears to have met with a great deal of success. Miss Grane's method of teaching arithmetic appears to be very complete."—*School Board Chronicle.*

THE METRIC SYSTEM, by the same ... ... 6d.

Easy to learn and pleasant to teach. Illustrated by 100 worked Examples. Sixth Edition.

		s.	d.
METRIC CHARTS, in Sheets, Second Edition ...	each	0	6
Varnished, Mounted on Rollers	,,	3	0
METRIC TABLES, for Class use, Second Edition ...	,,	0	1

"It is in my opinion an admirable little book, in matter, manner, and type, and will prove a great boon to teachers and pupils in elementary and higher schools."—*One of Her Majesty's Inspectors.*

"We recommend teachers and students to avail themselves of the help of Miss Grane's book. Her method is clear, simple, and perspicuous. The first earnest school-book on the subject."—*School Board Chronicle.*

"The work of a lady who knows and loves the subject. The expositions are clear, and the 100 worked examples practical. Teachers will do well to use this pamphlet of 48 pages."—*The Educational Reporter.*

"This little book has been carefully prepared, and contains much information specially suited to Standards V. and VI. The disadvantages, anomalies, and perplexities of our present weights and measures are very clearly placed before the reader, and then, in contrast, we are favoured with the economy and pleasure of the Metric System. The book is issued at a very moderate price, and is well deserving a perusal."—*Papers for the Schoolmaster.*

"We can thoroughly recommend it."—*National Schoolmaster.*

"Miss Grane has done good service by placing within the reach of Teachers the simple and clear exposition of the system contained in this little manual. The worked examples will prove a great assistance in making Metrical calculations easy and attractive to the children of our schools."—*Educational Times.*

STANDARD WORKS ON THE COLONIES.

Large Post 8vo., cloth, 12*s*.

WESTERN AUSTRALIA.—AN AUSTRALIAN PARSONAGE; or, the Settler and the Savage in Western Australia. By Mrs. EDWARD MILLETT. With Frontispiece.

"The main interest of the book centres in the quaint life of the cultivated authoress and her husband in a region so far off and strange; in their picturesque, simple, wooden house, open almost night and day, and their lovely climate and flowers; in their native protégés and volunteer native servants; in their animal pets; in the coming and going of the natives on their strange errands, nocturnal as well as diurnal; in their necessary makeshift life; in their adventures in the labyrinth of the trackless bush, and their perplexities during floods, and in constant meetings with the melancholy convict road-parties,—one of the most painful characteristics of Swan River life. . . . . We cannot even glance at more than a few points in this interesting volume, but strongly recommend our readers to peruse it for themselves. The style is so bright and clever, that it will be found a delightful book either to 'read up' in the family circle, or for personal perusal."—*Spectator.*

"The book is full of anecdote and pleasant writing; and the Appendix, containing a summary of the existing land regulations, which are of a liberal character, may be serviceable to those who may have a thought of emigrating to Western Australia. We make no extracts from a work which we should be glad to put into the hands of anyone who is interested in this part of our great colonial empire."—*Athenæum.*

Super-royal 16mo., cloth, price 5*s*. 6*d*.

*QUEENSLAND.—FOUR YEARS IN QUEENS-*LAND. By E. B. KENNEDY. With Photograph of "A Squatter's House," and a COLOURED MAP (scale, 64 miles to an inch; size, 23 inches by 18), showing all the latest Discoveries, from private and other sources, with the Agricultural Districts and Gold Fields clearly defined.

"We close with regret Mr. Kennedy's useful and compact little volume. It contains in a small compass a mass of useful suggestions to intending emigrants, while it will furnish to stay-at-home readers an admirable summary of the position and prospects of one of the most promising of England's colonies. . . . . Thoroughly interesting and readable from beginning to end."—*Examiner.*

Super-royal 16mo., cloth, price 5*s*. 6*d*.

VICTORIA, THE BRITISH "EL DORADO." Showing the advantages of that Colony as a field for Emigration. By a COLONIST of Twenty Years' Standing, and late Member of a Colonial Legislature. With Two Coloured Views and a Map.

"The philanthropist who desires to help his suffering fellow-countrymen—the clergyman—all who would take a part in promoting the welfare of their weaker brethren, may peruse this little volume with real profit."—*Athenæum.*

GROVE PARK SCHOOL,
WREXHAM.

THE Principal, Mr. J. PRYCE-JONES, respectfully invites the attention of Parents to the following facts:—

1. Wrexham is pleasantly situated in a very healthy neighbourhood, and easy of access from all parts of the kingdom.
2. The GROVE PARK SCHOOL premises are extensive, and fitted up with due regard to the comfort and convenience of the Pupils.
3. The House is surrounded by its own Grounds, and the large Play-ground and Cricket-field afford every facility for recreation.
4. For several years in succession Certificates (either from the Universities or the College of Preceptors) have been awarded to one-third of all the Pupils in the School.
5. The efficiency of the School is not confined to one branch of Education, as may be seen from the circumstance that Honours have been awarded to the Pupils in many distinct subjects, *e.g.*, Latin, Greek, Mathematics, French, English Language, History, Geography, Chemistry, and Book-keeping.
6. The Principal makes it a special aim to form in his Pupils a manly Christian character.
7. The Food is carefully prepared, good in quality, and unlimited in quantity.
8. The Terms are moderate.

STANFORD'S

NEW SERIES OF SCHOOL MAPS.

[*THE BEST PUBLISHED.*]

Prepared under the direction of the Committee of General Literature and Education appointed by the SOCIETY FOR PROMOTING CHRISTIAN KNOWLEDGE, and of the NATIONAL SOCIETY FOR PROMOTING THE EDUCATION OF THE POOR.

This New Series of SCHOOL MAPS has been drawn and engraved with the utmost care at STANFORD'S Geographical Establishment, and is constructed upon the principle of combining with geographical accuracy and systematic arrangement the bold outline and lettering requisite for teaching. The Series only differs from the most complete and expensive Wall Maps in the substitution of boldness instead of details. In other respects, the Maps will bear comparison with those of the highest class, especially with regard to the latest discoveries and political changes; they have already secured a large amount of patronage, and several have been sanctioned and supplied by the COMMISSIONERS OF NATIONAL EDUCATION (IRELAND) to the schools under their control.

The selection of these Maps for the use of the great Public School at Harrow offers the strongest proof of their superiority. Being the largest Maps of their class, their size (17 inches by 14) affords opportunities for the insertion of various details for which there is no room in the maps of the smaller atlases. In the present edition (to keep pace with recent geographical events) the new boundaries of the German empire have been indicated, and all the latest alterations and discoveries inserted.

THE USEFUL KNOWLEDGE SOCIETY'S SERIES OF MAPS,

ANCIENT AND MODERN.

218 IN NUMBER.

Size, 17 inches by 14. Price, Plain, 6*d.*; Coloured, 9*d.*

Any of the Series may be had mounted to hang up, or to fold, or bound together, according to order.

The low price of this extensive Series of Maps induces the Publisher to state that they are in every respect of the highest character; and, as a whole, their superiority in scale, accuracy, and engraving, over any other general collection, may be justly asserted. The Series, in fact, contains pre-eminent examples of the English School of Chartography, the merits of which are admitted; and although other Maps are still sold at a sixfold price, their inferiority is in many cases very evident. The latest discoveries and alterations are inserted on the plates, as soon as authenticated, and several of the Maps have been repeatedly re-engraved—the whole Series being thus rendered a faithful delineation of the current state of Geographical Knowledge.

DIAGRAMS OF NATURAL HISTORY.

These Diagrams, compiled by the eminent Scientific Men whose names are appended, and hitherto issued by the Society for Promoting Christian Knowledge, will in future be published by EDWARD STANFORD, 6 and 7, Charing Cross, London.

They are drawn with the strictest regard to Nature, and the Plates have been engraved in the best style of art. The series consists of Eleven Subjects, each arranged so that it may be mounted in one sheet, or be divided into four sections and folded in the form of a book, thus rendering them available either for Class Exercises or Individual Study.

CHRONOLOGICAL PICTURES

OF

BRITISH HISTORY,

FROM THE

ANCIENT BRITONS TO THE REIGN OF QUEEN VICTORIA.

A SERIES OF FORTY PLATES,

CONTAINING 360 ILLUSTRATIONS.

Beautifully Tinted, Designed, and Drawn on Stone by

SIR JOHN GILBERT,

PRESIDENT OF THE SOCIETY OF PAINTERS IN WATER-COLOURS.

With an Additional Plate to illustrate

THE REIGN OF QUEEN VICTORIA,

Thus continuing the Series up to the present time.

The work consists of well-executed drawings of subjects taken from the History of England, arranged in chronological order and exhibiting the progress of events to the present reign, whether connected with the religious, political, or domestic state of society. The subjects illustrated are as various as they are interesting, and include portraits of the reigning monarchs and most distinguished contemporaries; the events connected with the ecclesiastical policy of the country; the development of our Constitution; military and naval actions; our progress in art, science, commerce, and literature; the erection of our public buildings; foundation of our Universities and the origin of the learned Societies; progress of inventions and of the refinements of life; while the manners, customs, and costume of the people are carefully attended to.

The Plates are printed on Imperial folio, size 22 inches by 15. Each Plate illustrates a Period or a Reign, and Facsimiles of the Autographs of the Sovereigns and the most distinguished characters are attached. Price £2 the Set. Separate Plates, 1*s.* each.

"GRAPHIC ILLUSTRATIONS OF ANIMALS," though a designation sufficiently explicit for the title-page of a book, is too indefinite to convey an idea of the extensive usefulness and preceptive character of *this work.* The design is to show the *Utility of Animals to Man*, both *in their services during life and in their uses after death*; and to deduce results calculated to excite interest and admiration, and evince the Wisdom and Goodness of God in the subsistence, comfort, and social advancement of his creature MAN.

THE ANIMAL KINGDOM AT ONE VIEW,

Clearly exhibiting, on four beautifully coloured Plates containing 184 Illustrations, the relative sizes of Animals to Man, and their comparative sizes with each other, as arranged in Divisions, Orders, &c., according to the Method of BARON CUVIER.

PLATE I.—24 *Illustrations.*

PLATE III.—38 *Illustrations.*

REPTILES and FISHES.—The locality indicated, and drawn on a Scale of $1\frac{1}{2}$ inch to a foot.

PLATE IV.—64 *Illustrations.*

INSECTS.—SOFT-BODIED ANIMALS . . . . . .
RADIATED and PLANT-LIKE ANIMALS . . . . . } The natural Size.

This important work is eminently calculated to facilitate the work of elementary instruction in the most interesting branch of Natural History—the Animal Kingdom. In the absence of the living animals themselves, a correct representation of their forms and comparative sizes must be considered a most desirable attainment. Such an object is effected in the present publication, which furnishes the most correct, simple, and attractive method of cultivating this study which has ever been presented to notice. Its peculiar features are that all the Animals are drawn from nature on a scale laid down on each print—MAN being given as the standard of measurement, by which means not only the true comparative size of each animal is shown, and the natural size correctly ascertained; but the erroneous impressions which children are so apt to receive from representations of animal life, in which no comparative standard is preserved, are entirely removed.

VARTY'S EDUCATIONAL FRAME, WITH A GLASS, 16 by 21 inches, and 1½ inch deep, having the appearance of an ordinary frame, has been contrived, sufficiently deep to contain the whole series of Fifty-two Prints. These are pressed against the Glass by a door at the back on hinges so that one print only is shown at a time; by this arrangement the subject can be changed as required by merely shifting the foremost print. Thus, the whole Series are preserved from dust and improper handling.

OPINIONS OF THE PRESS.

"The prints will prove a great help in teaching. Although only One Shilling each, they are remarkably well executed, great pains having been taken to keep strictly to the Text of Scripture, and correctly to illustrate the customs and manners of the period."

"A valuable help in home education."—*See Report of the Home and Colonial School Society.*

"They require to be seen in order fully to be appreciated."

"The object is to assist Scriptural instruction. Such an object is highly praiseworthy, more particularly so at the present time, when so many are indifferent to Religious instruction. The Prints are well got up. They may be made much of, even in a higher department of instruction, by a judicious teacher of youth."—*The Times.*

"We speak from experience when we say that these Prints are most attractive and effective, and we would strongly recommend them to all who feel interested in the religious instruction of the young."—*Christian Ref.*

"The work now before us is one well adapted to assist the Parent or Teacher in conveying to the mind, at a tender age, Scriptural Truths and Precepts, through the medium of sight. As a whole we unhesitatingly say that this work is far superior to anything of the kind ever attempted in Bible Illustration. The moderate price of the work places it within the reach of all."—*Church of England Quarterly Rev.*

"We can but express our satisfaction at their creditable execution and useful purpose, and we warmly recommend them to all who have the care of young people. They are coloured with taste and care."—*St. James's Chronicle.*

CHRIST AN EXAMPLE FOR THE YOUNG, as exhibited in the Gospel Narrative of the Four Evangelists. Harmonized and Chronologically Arranged, Illustrated by Fifty-five Engravings, Printed on different Tinted Papers to distinguish the various Periods of our Lord's Ministry, having Picture Definitions and Exercises, and a Map in Pocket. Fifth Edition. By ROBERT MIMPRISS, Author of "The System of Graduated Simultaneous Instruction." Reduced price, bound in cloth, 6*s.*

"This is not only knowledge made easy, but instruction made easy. Dull is the parent that cannot teach, and very inapt the child that cannot learn, with such helps as are here provided; and dull beyond all dullness the fancy that cannot be kindled by so much striking, touching, pictorial exhibition. The thing is quite a prodigy in its way: we have here geographical notices of the places where the events occurred, illustrated by fifty-five engravings, with picture definitions and exercises, by the author of the system of graduated simultaneous instruction. The lessons, in all, amount to 100, exhibiting the structure and contents of the four evangelical histories. There is also a class chart for reference, delineating the Gospel Narratives, with every event localized. A history, thus accompanied by geographical notices, with explanations, historical representation, picture definition and exercises, becomes entertaining to a degree, while it is rendered useful by practical lessons, with proofs and illustrations of the doctrine. It is, altogether, a most ingenious performance, leaving, in the deepest shade, everything else of the sort ever hitherto presented. The twenty-eight columns of index exhibit, in a moment, the amazing fullness of the narrative, and the accuracy with which it has been analysed. We have never before seen pictorial power brought to bear so fully and successfully on the illustration of Divine truth."

READING DISENTANGLED, or Classified Lessons in Spelling and Reading. By the Author of "Peep of Day," &c. Handsomely bound, 2*s.* 6*d.*; or in school binding, 2*s.*

"The continued demand for Reading Disentangled has led the publishers to believe that in another and more portable shape it would be still further and more generally used, not only in National and other large schools, but also in smaller schools and for private tuition. The lessons are the same as printed in the sheets, and it may probably be found useful in some cases still to have the sheets for collective teaching, while the books may be either for the teacher's or the scholar's private study.

"The publishers feel they need say nothing further to commend in its new and more attractive dress this well received production of the author of 'Peep of Day.'"—*Extract from Preface.*

"Adapted for use in the family circle or in private schools. The type is bold and clear, and the lessons easily graduated. Plain hints to the teacher are added."—*Record, Sept.* 23, 1864.

THE LONDON CLASS-REGISTER AND SUMMARY OF ATTENDANCE AND PAYMENTS, Ruled and Printed for 52 Weeks. Adapted to the requirements of the "New Code." By WILLIAM RICE, F.R.G.S., late Master of the Queen's School, Kew, Author of the "Class and Home-Lesson Book of English History," &c.

This Register has been recommended by Her Majesty's Inspectors of Schools, and is acknowledged by the highest educational authorities to be the *best* published.

A separate "Summary" or "Abstract" is not required.

". . . . . One of its greatest merits, it seems to me, lies in its simplicity. The time and labour required in obtaining from School Registers the information demanded by the Privy Council Office, are here reduced to a minimum. . . . . It is admirably arranged and excellently executed."
